WTV 6 – 17 Cable Committee

Present: Will Ottery Chairman, Paul Hague, Stephen Flanders, Craig Slattum, Brad Macauley, Donna Osborne, Jude Chavette, Brian Gratton, Paul Levandowski, Marge Burke, Mark Schaub, Helene Kirk.

Helene Kirk asked if the intention was to move the Cable Studio and equipment to the New Weare Middle School. Brian Gratton said no that there is no room for the studio at the new school. He then explained that a meeting was suggested to clear up and misinformation, put forth new and accurate information, and to see what equipment would be needed. He also wanted to see how the various committees felt about these issues.

Helene Kirk stated that she was only one of five selectmen and she would only be able to bring information back for the others.

Marge Burke said the School Board would like to broadcast their meetings live as well as other functions from the new Middle School. She would also like to see the equipment left at the Center Woods School to be used down there. The equipment down there is older and might not serve the new school well. Paul Hague said that the portable stack had good equipment in it and could easily be moved to the New School. Brian Gratton said he could do that but he would need a matrix switch and a DVD Player. He also presented two estimates that he had for equipment to give the school the ability to broadcast. Helene Kirk suggested that the school and the WTV Cable Committee work together to come up with a recommendation and then bring that recommendation to the BOS. This was agreed by all parties present.

Meeting adjourned at 5:55 PM
